

Professional Health Tracker for Your Parents in India

AyushCare is a comprehensive program available to NRIs for tracking health parameters of their parents / aged relatives living in India. NRI is the subscriber while a senior citizen living in India is the beneficiary. The program includes periodic visit by a doctor to beneficiary's home, physical examination by the Doctor, routine pathology tests, review of records by a senior doctor, updated records in EMR and a health tracker shared with a relative abroad.

Key Service Features :

- Periodic home visit by a Family Doctor along with comprehensive report
- Periodic Basic pathology tests - samples collected from home
- Centralized storage of EMR – access by Subscriber, Parents and authorized doctors
- Visit to Consulting Physician at Clinic - optional pick-up from home
- Optional Home delivery of medicine prescribed by the Doctor
- Optional Video / Audio consultation with attending doctor
- Optional second opinion with Specialist
- Mail response to any query by subscriber

Benefits to Family :

- ✓ Peace of mind for the Subscriber living away from aging parents
- ✓ Comprehensive visit report by Doctor enabling tracking of health parameters of parents
- ✓ Complimentary subscription to **IndiaOnlineHealth** (for features please visit www.Indiaonlinehealth.com)
